### Nova Grammatica:

**Declensions:** Latin nouns are each categorized in different groups with *different* ending.  
These groups are called declensions. You have already seen three declensions.

**1<sup>st</sup> declension:** Metella, via, cēna  
**2<sup>nd</sup> declension:** Caecilius, hortus, servus  
**3<sup>rd</sup> declension:** Grumiō, mercātor, canis

\* *notice that 3<sup>rd</sup> declension nouns  
have various endings while 1<sup>st</sup> and  
2<sup>nd</sup> declension nouns are the same.*
