

Stage 2 Project

15 points

Find pictures of food items that would constitute a Roman "cēna" and paste them on the appropriate table for each course. You will be graded on effort, accuracy and general deliciousness. Each table must have at least three or more items except for the beverage table. Investigate "Apicius" and his cookbook for ideas for your menu and use the authentic names for dishes that can be found in his cookbook. Write and attach a menu for you Roman Cena to the end of the project.
